

Total Deaths by Occurrence Year and Reporting Year

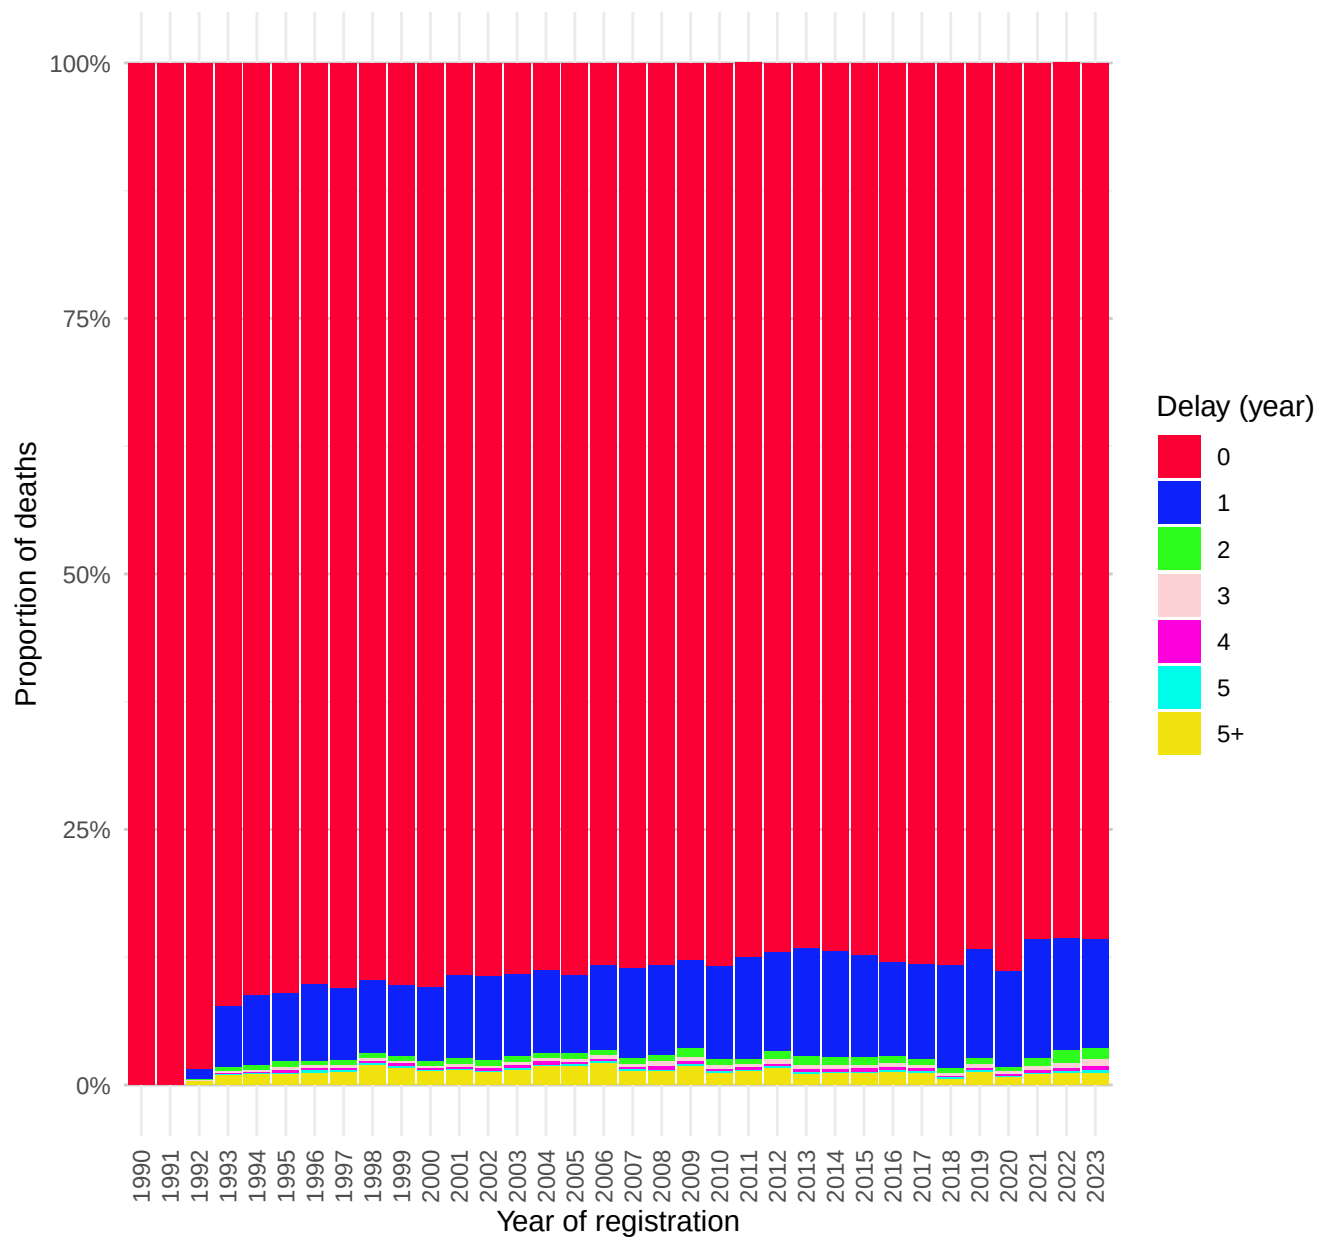

Reporting Delays for Deaths by Year of Occurrence

Each bar shows the proportion of deaths by how many years later they were registered

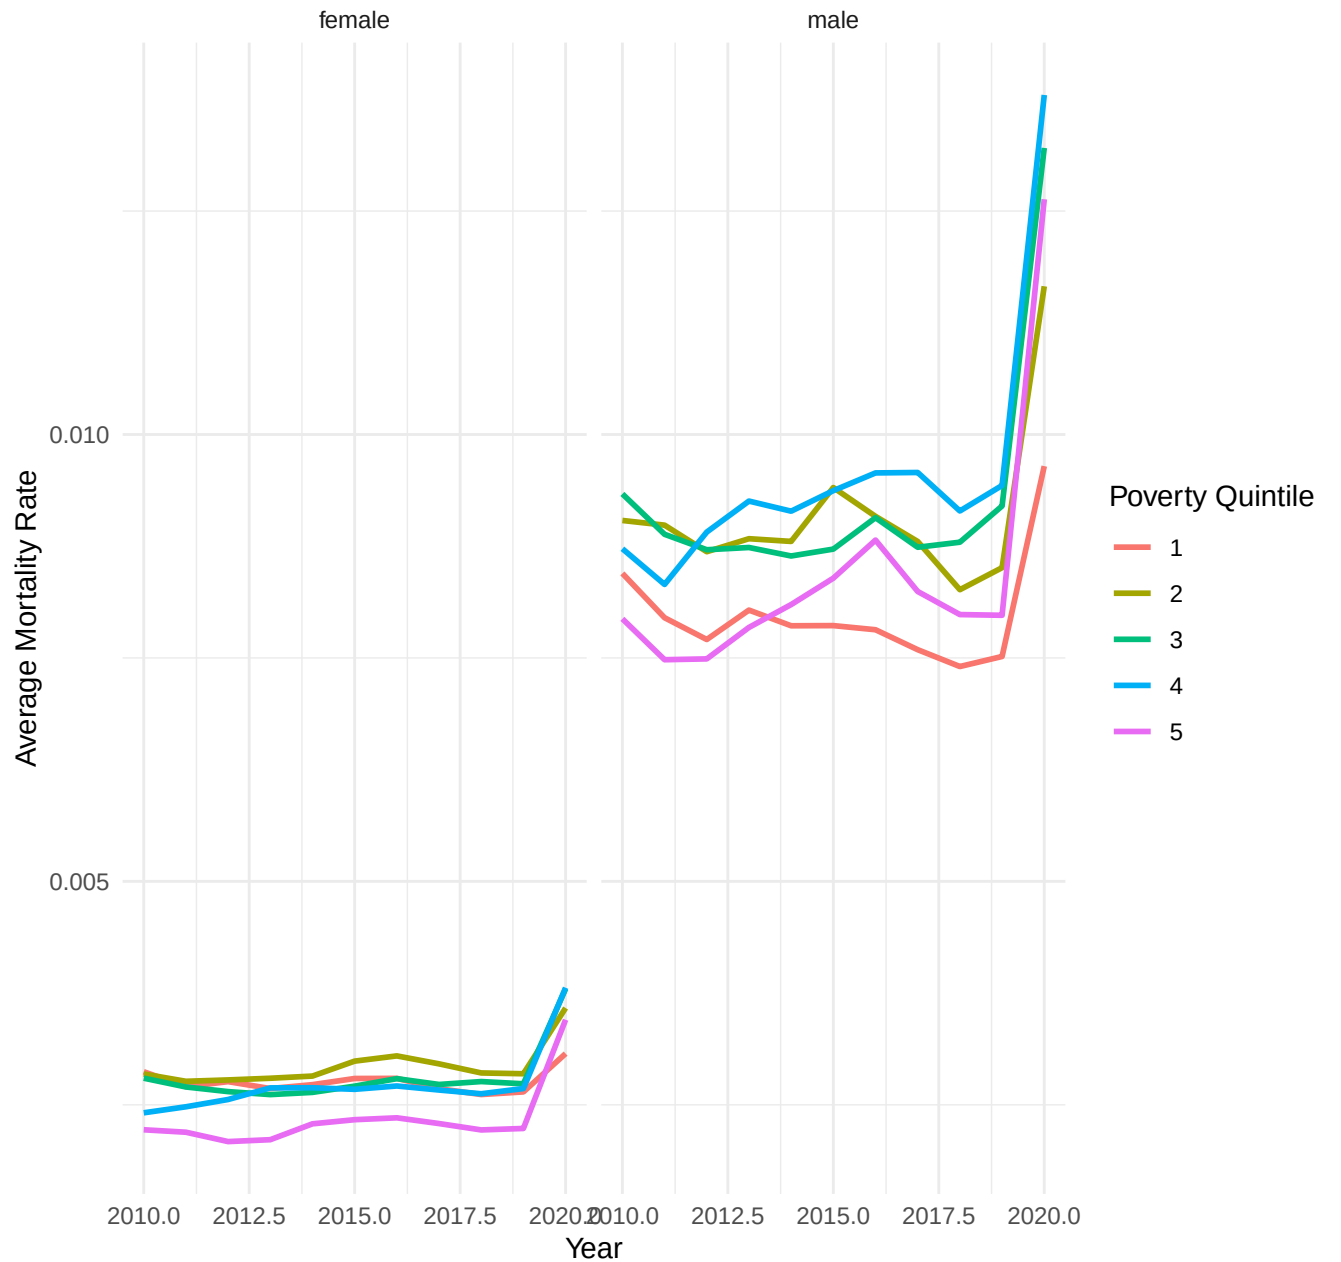

Reporting Delays for Deaths by Year of Registration

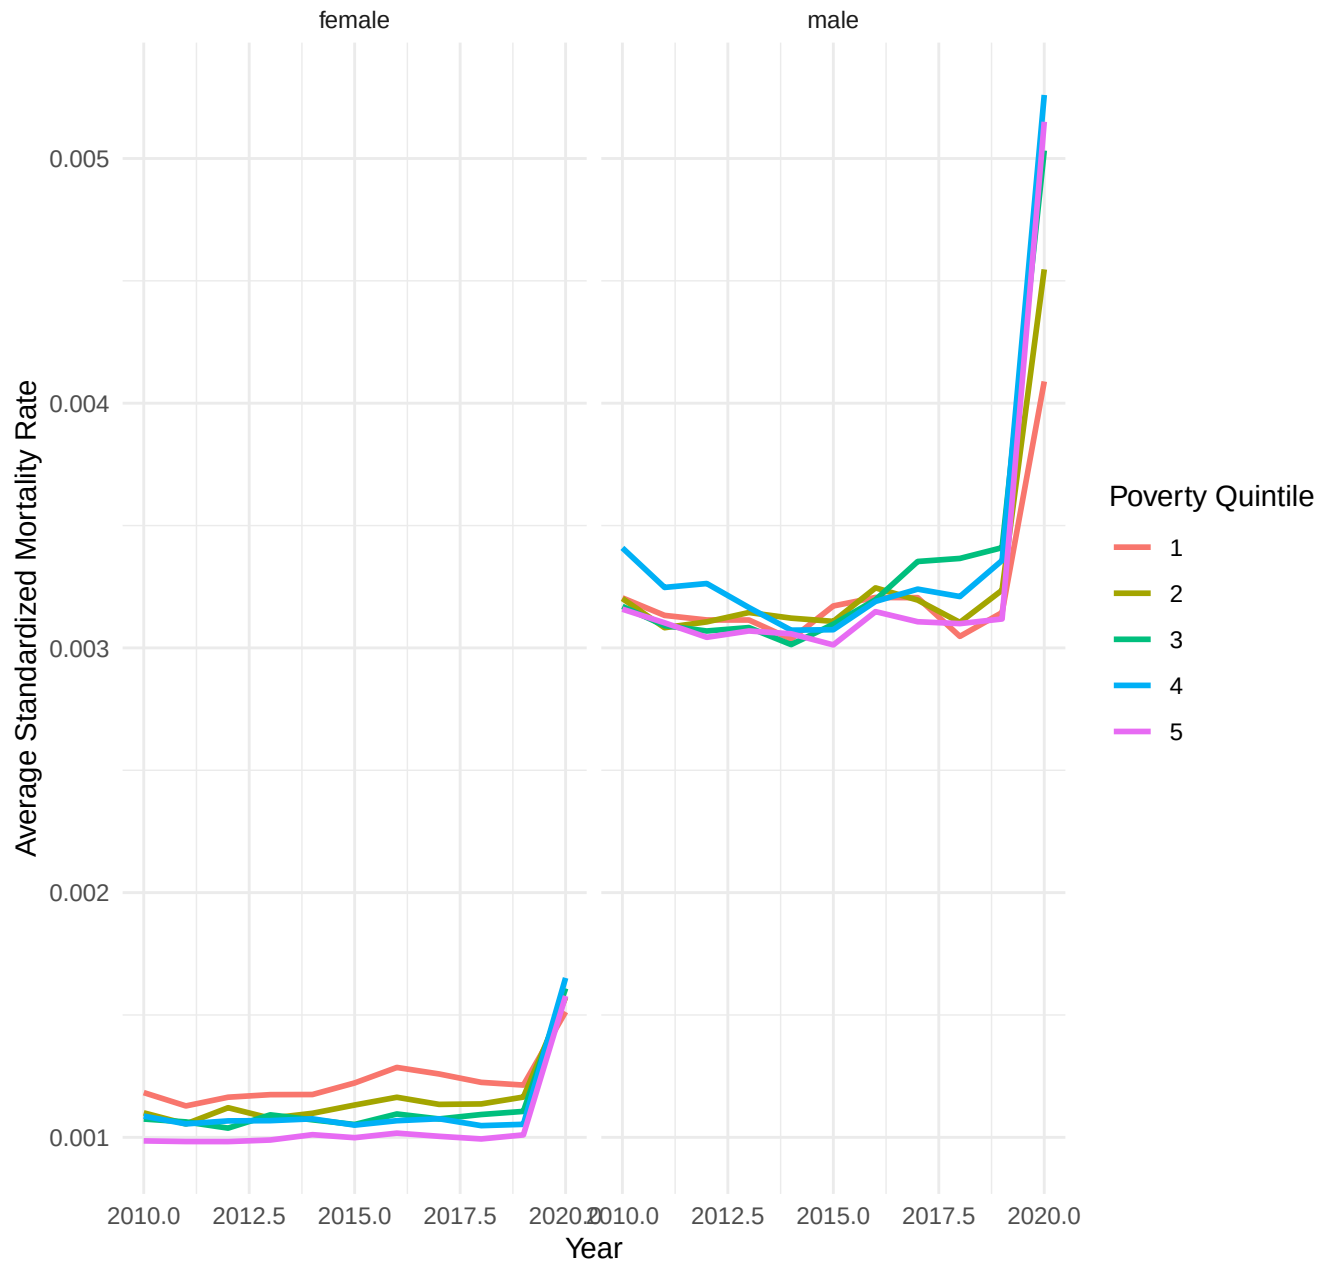

Each bar shows the proportion of registered deaths by how many years earlier the death occurred

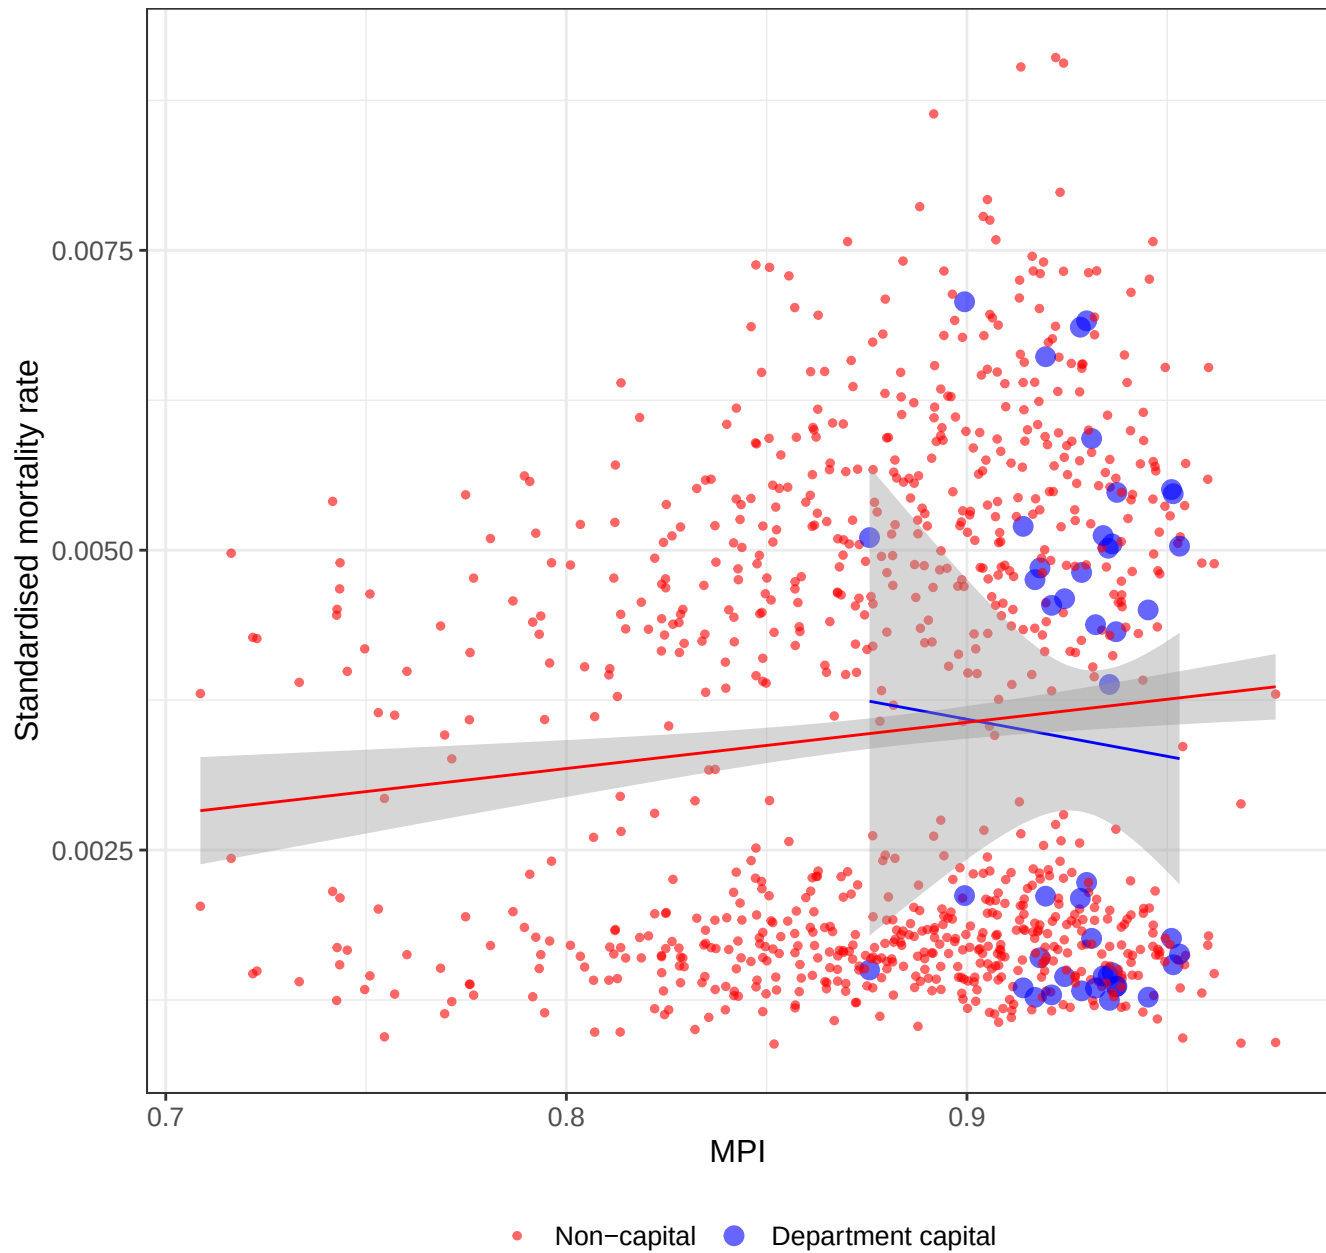

Mortality Trends Over Time

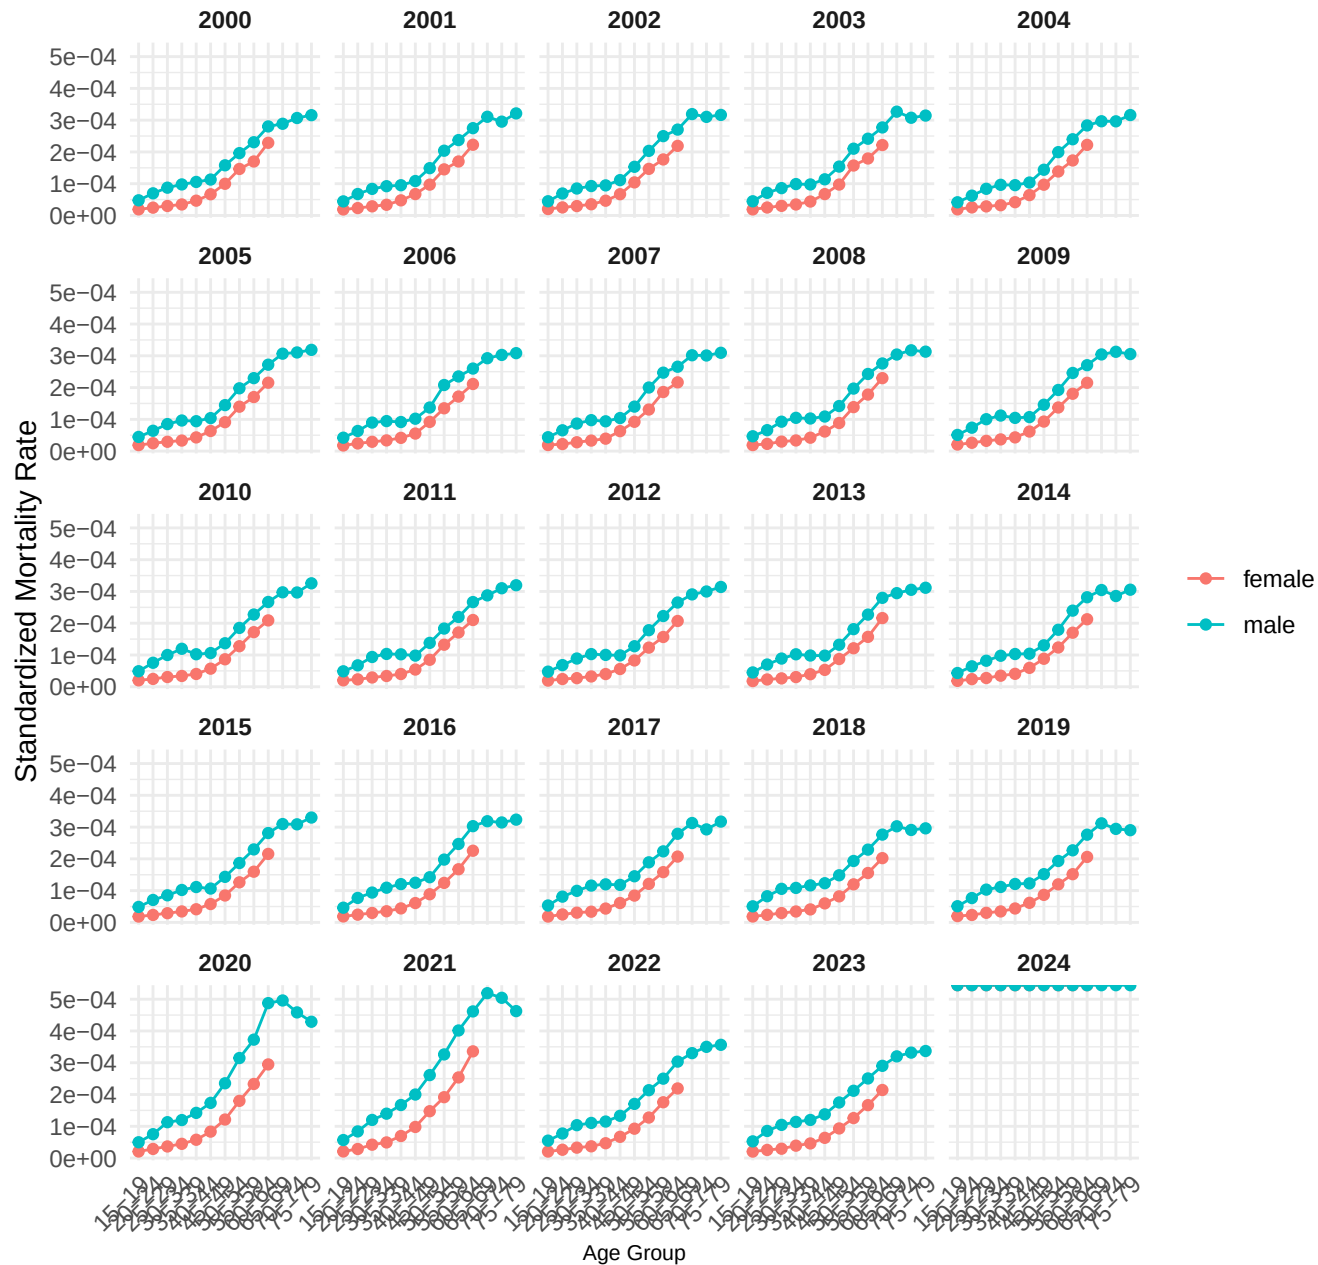

Mortality Trends Over Time

Raw data (mortality)

Standardized Mortality Rate by Age and Sex

Standardized Mortality Rate by Age Group

female

male

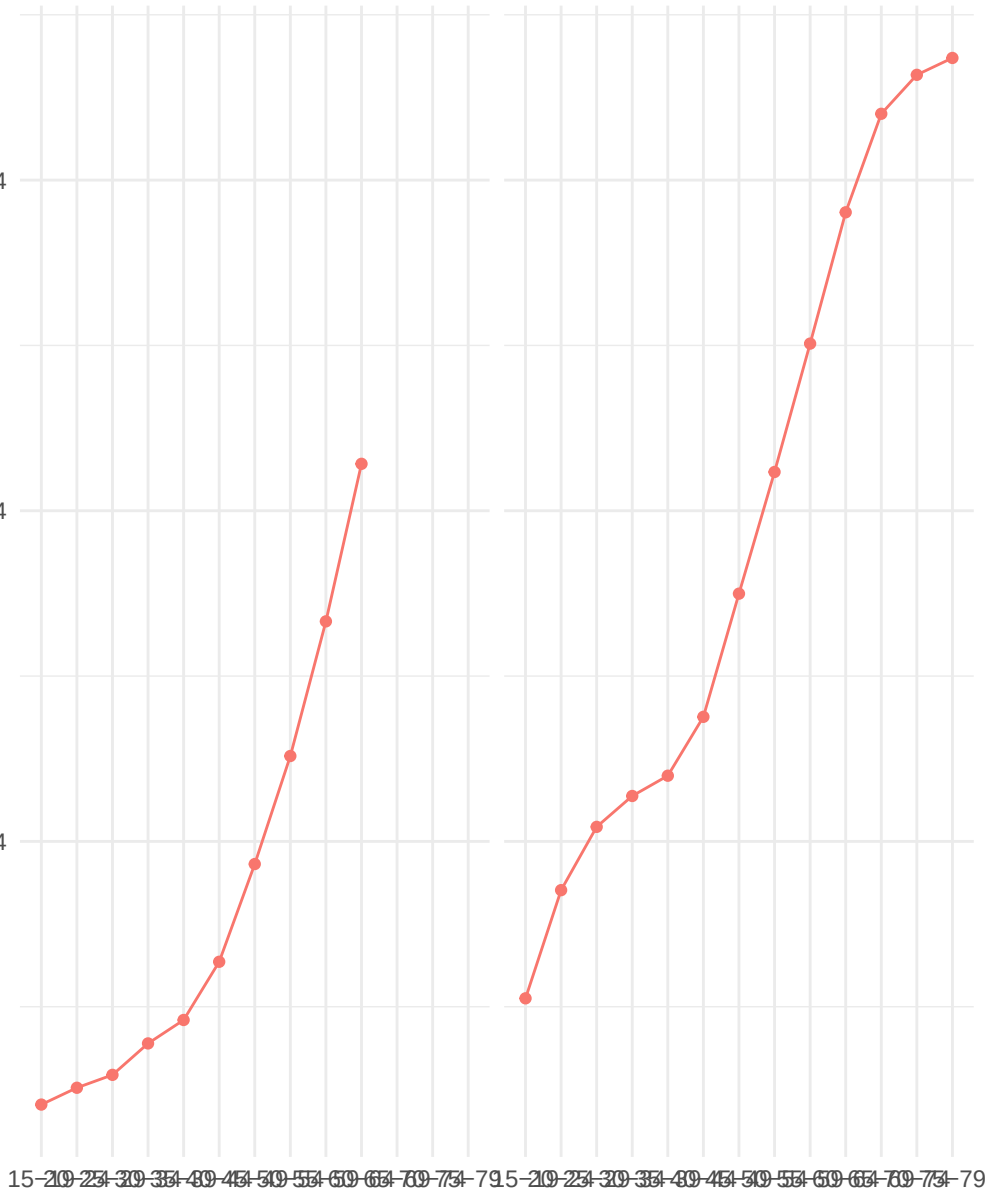

Standardized Mortality Rate

as.factor(year)

2023

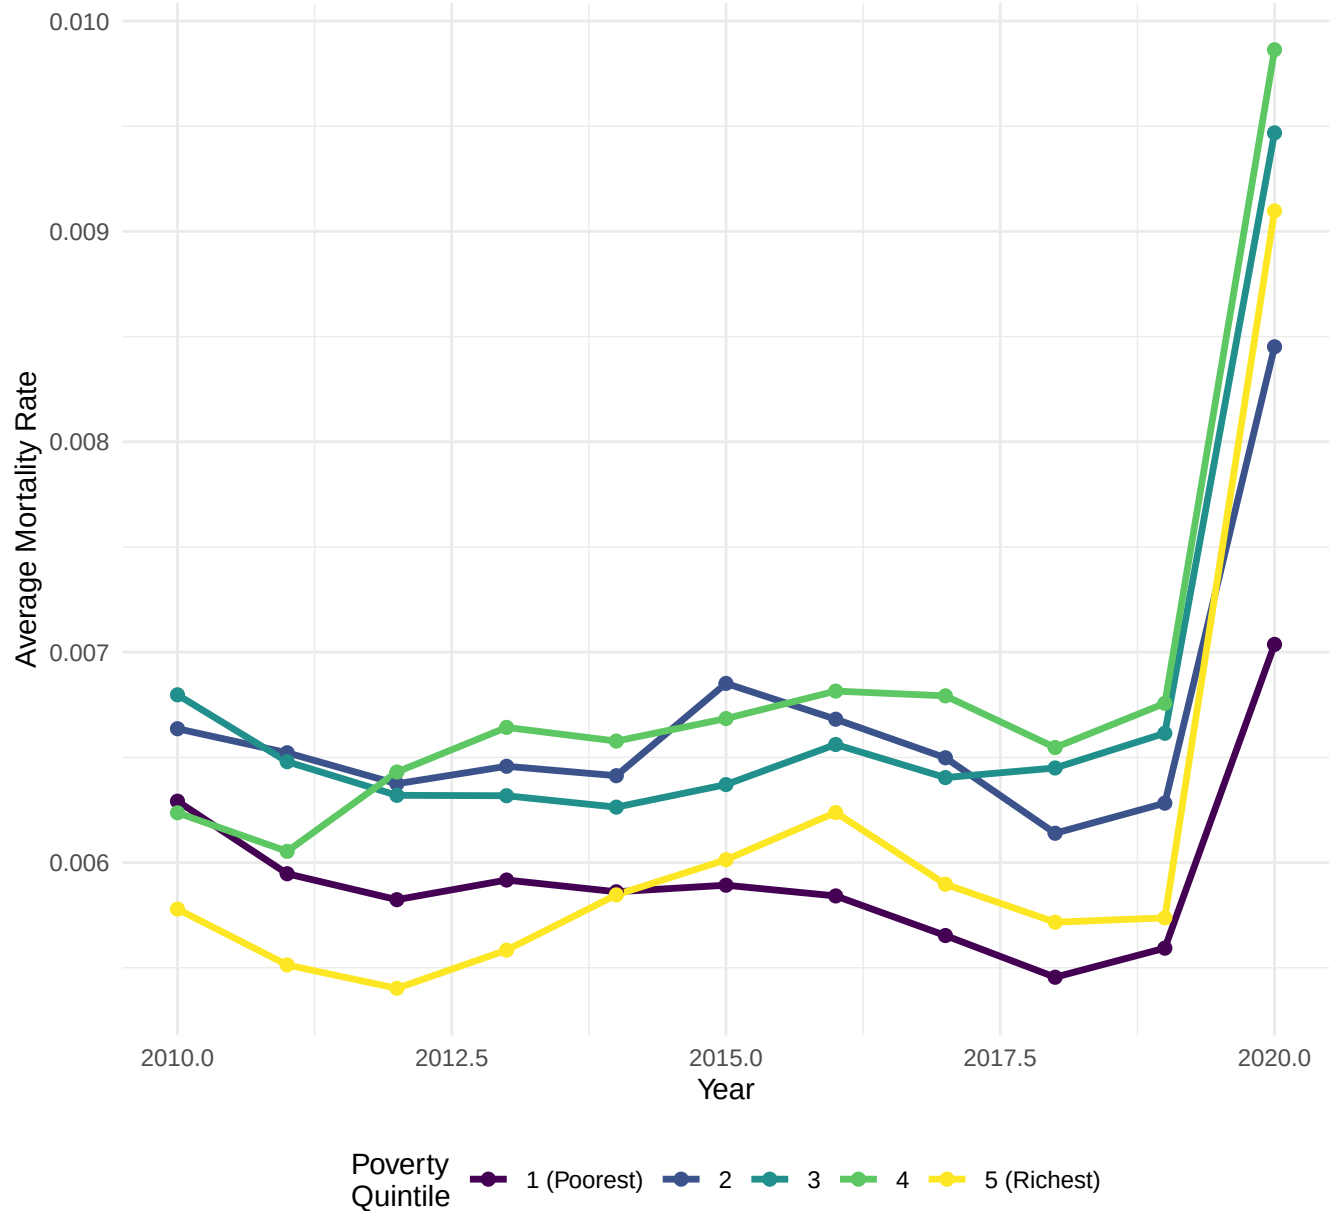

15-19 20-24 25-29 30-34 35-39 40-44 45-49 50-54 55-59 60-64 65-69 70-74 75-79

Age Group

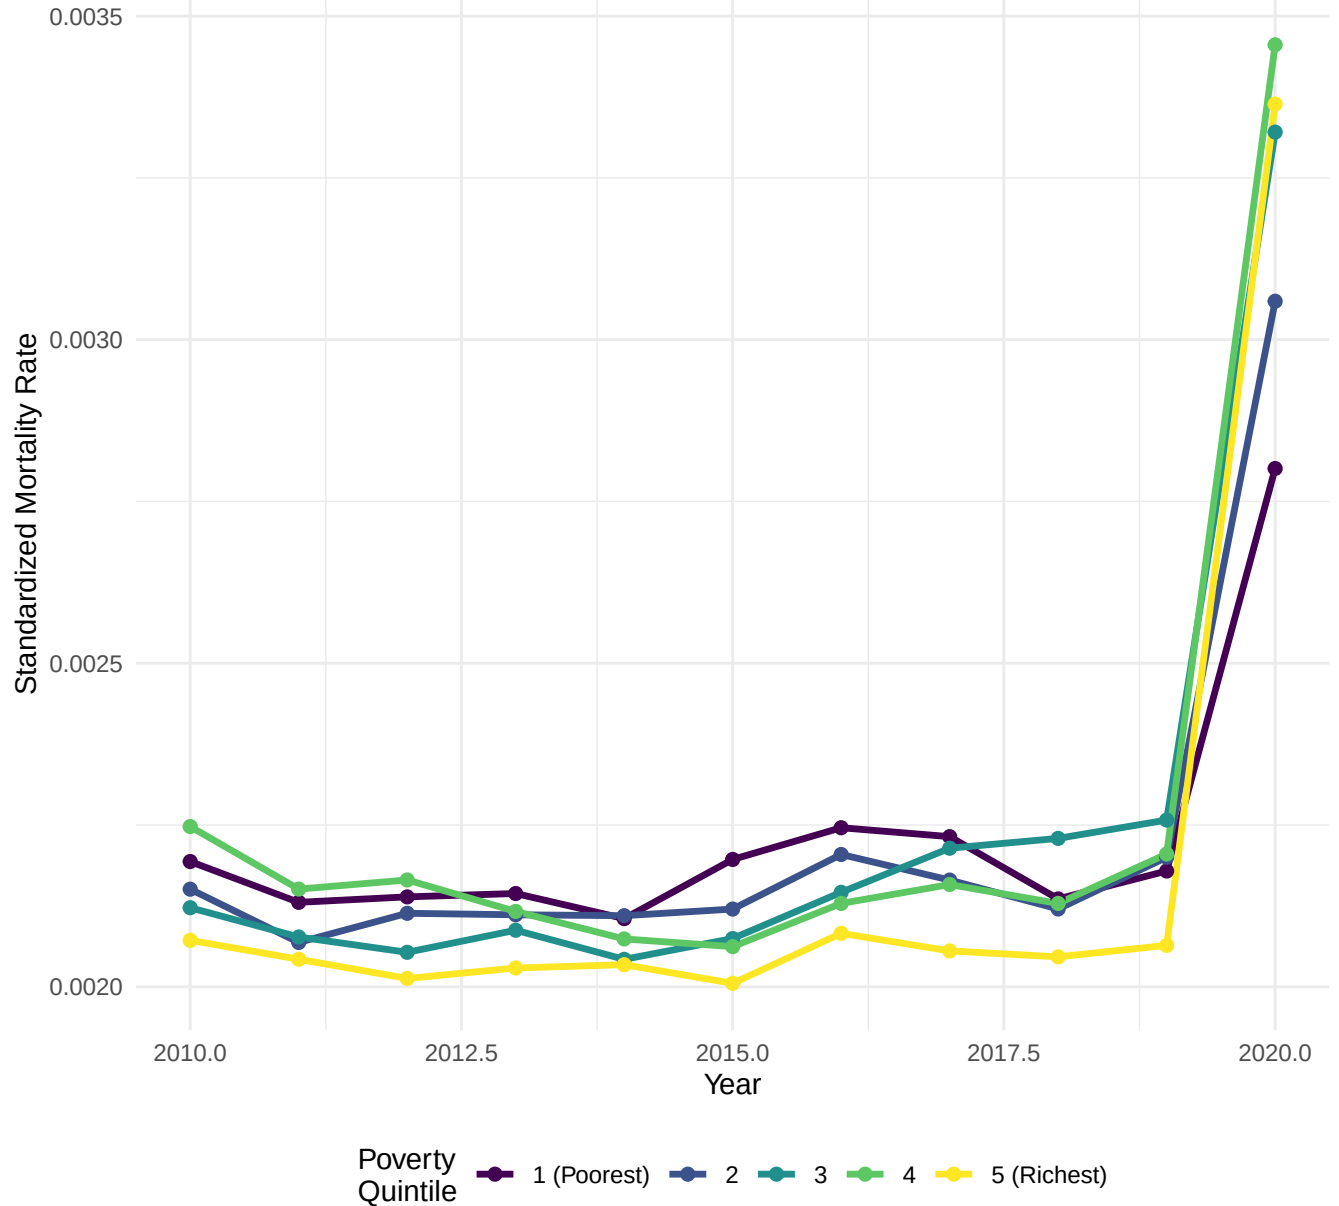

Mortality Trends by Poverty Quintiles (2010–2020)

Average mortality rates across municipalities

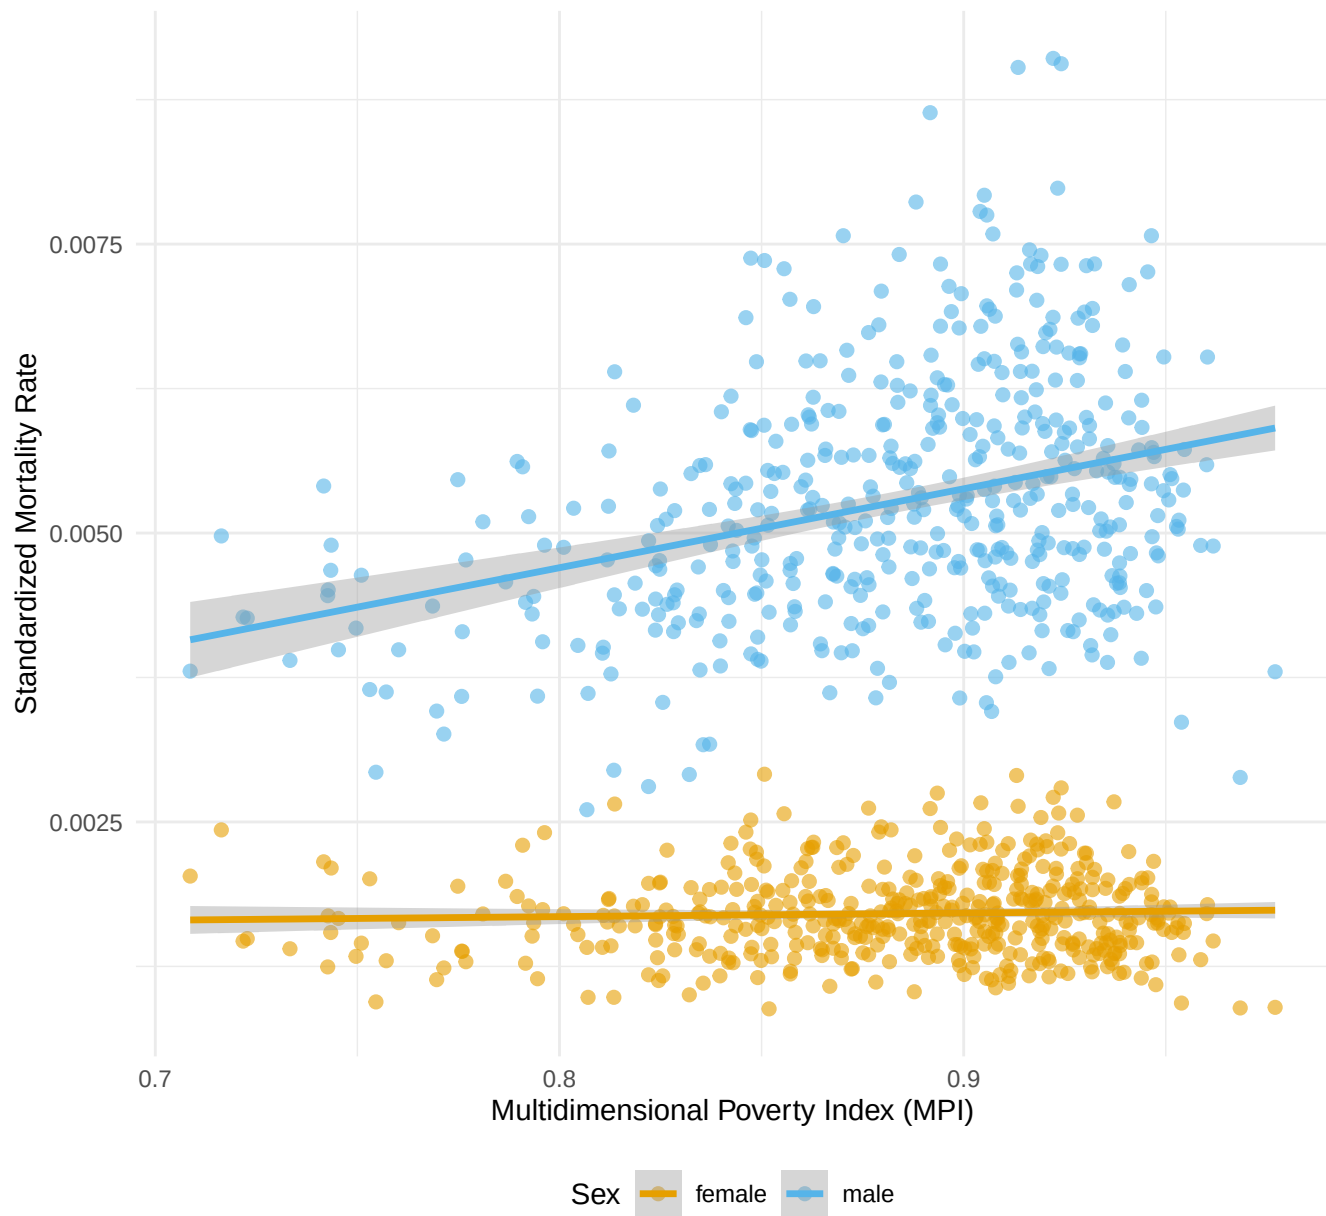

Standardized Mortality Trends by Poverty Quintiles (2010–2020)

Age-standardized mortality rates across municipalities

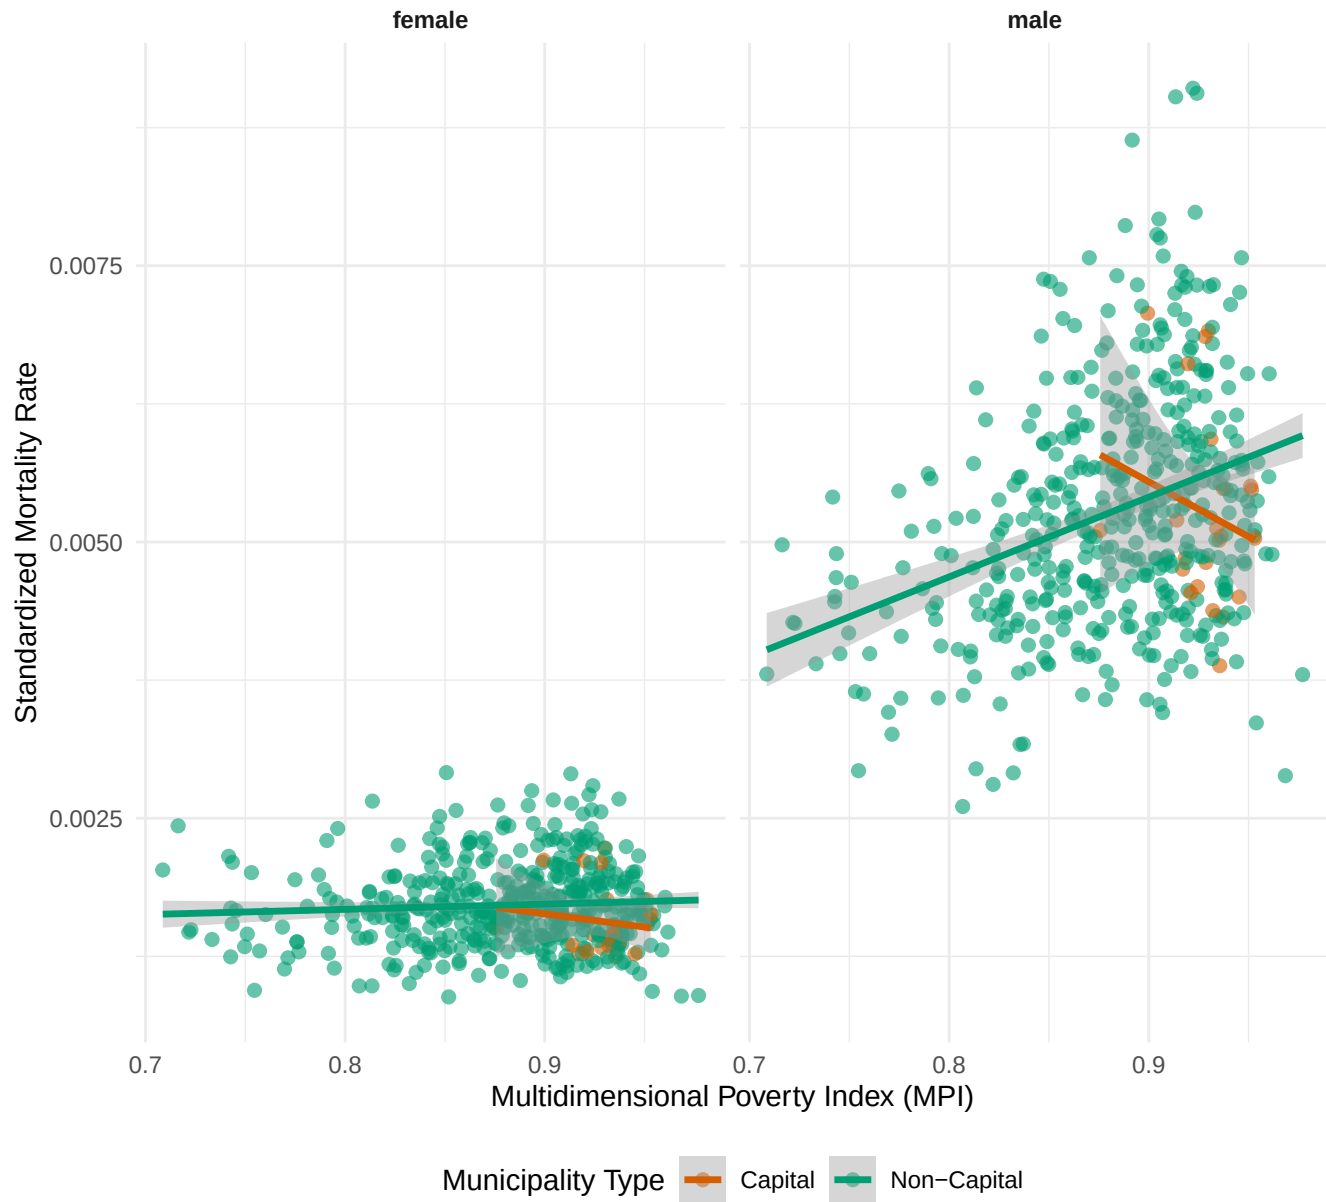

MPI vs. Standardized Mortality Rates by Sex (2023)

Each point represents a municipality group

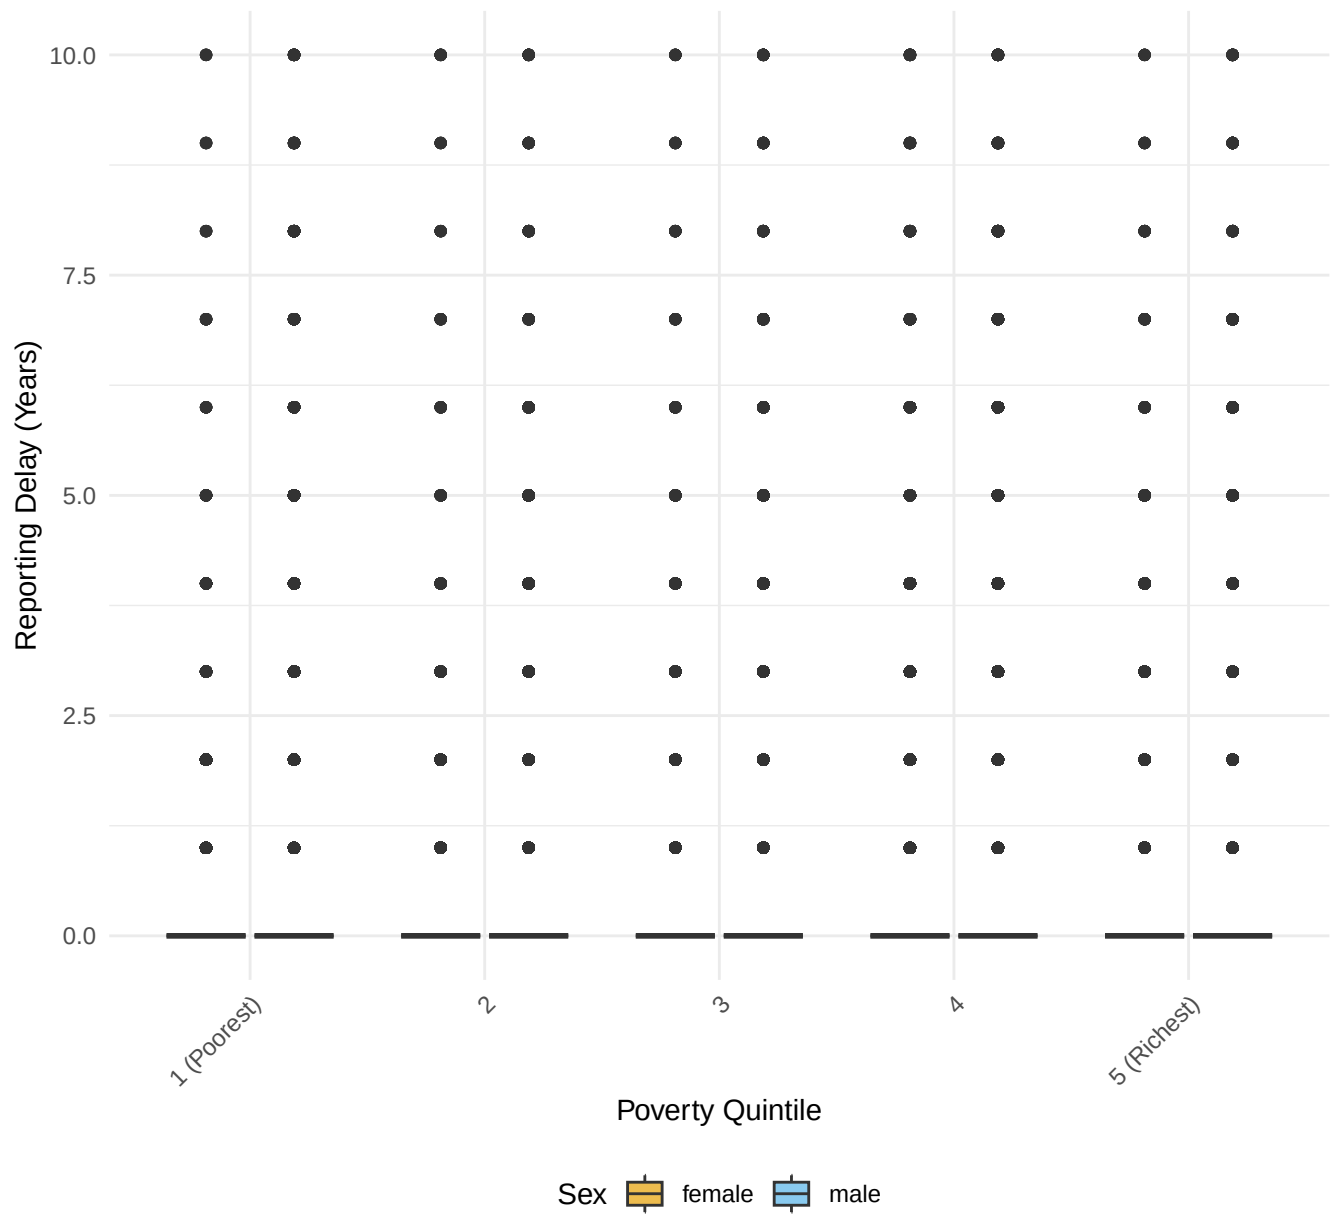

MPI vs. Standardized Mortality Rates by Capital Status

Comparison between capital and non-capital municipalities

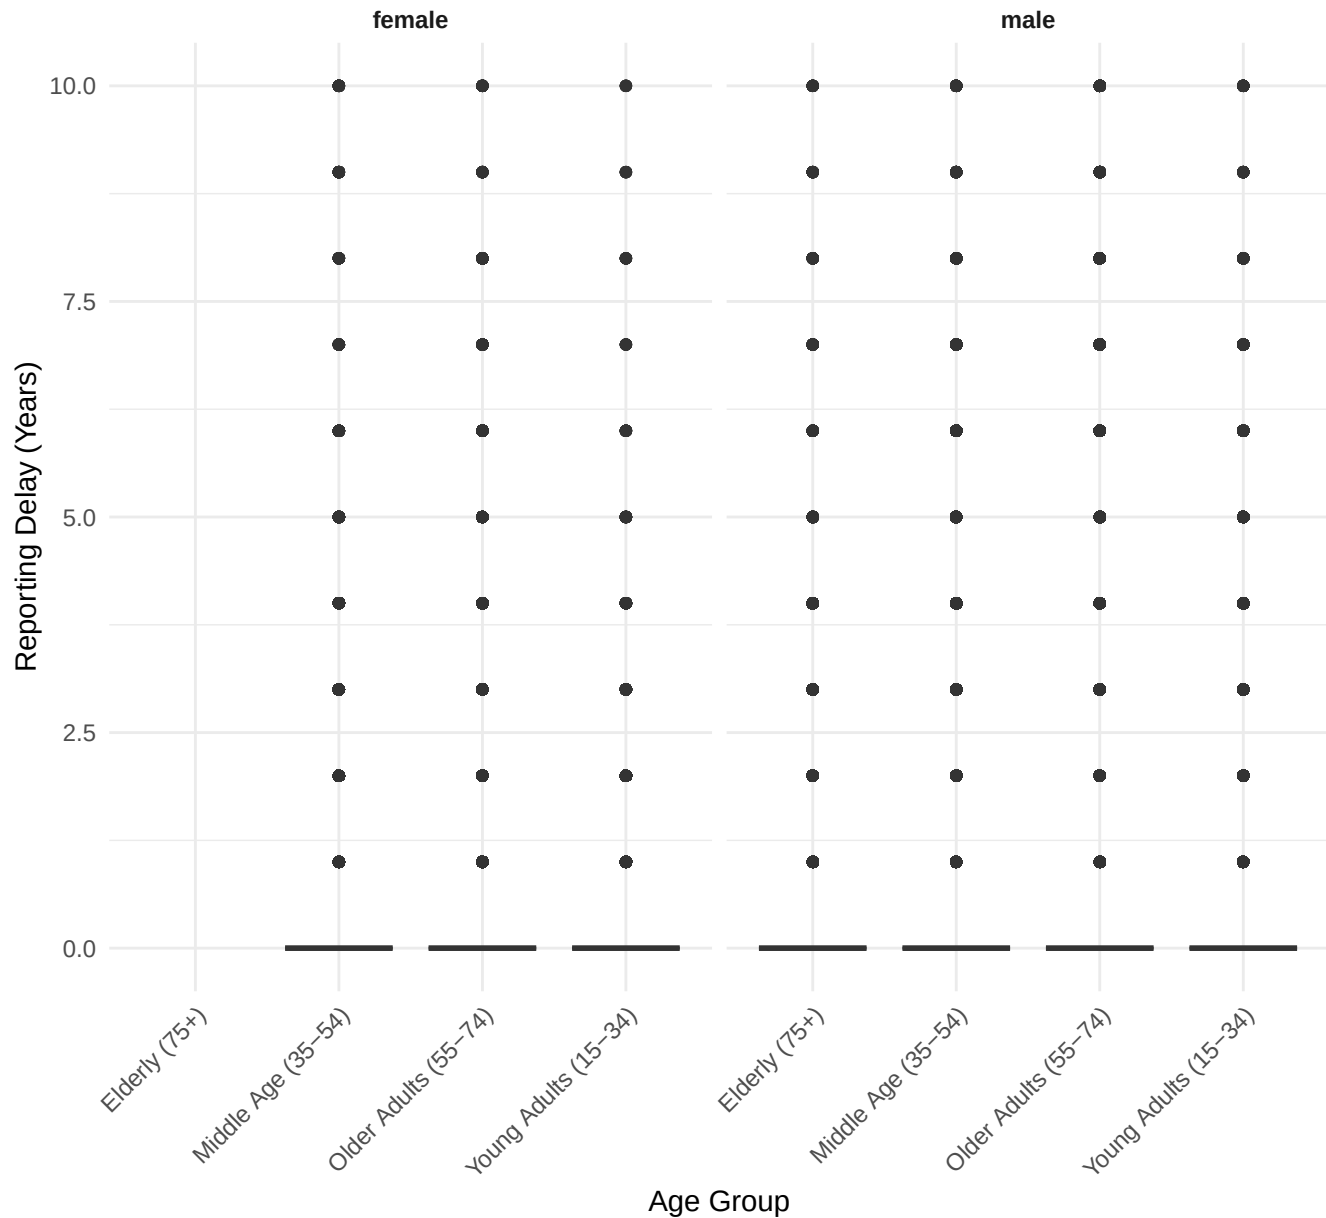

Reporting Delay Distribution by Sex and Poverty Level

Years between death occurrence and registration

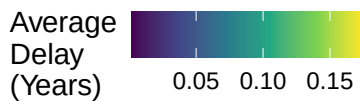

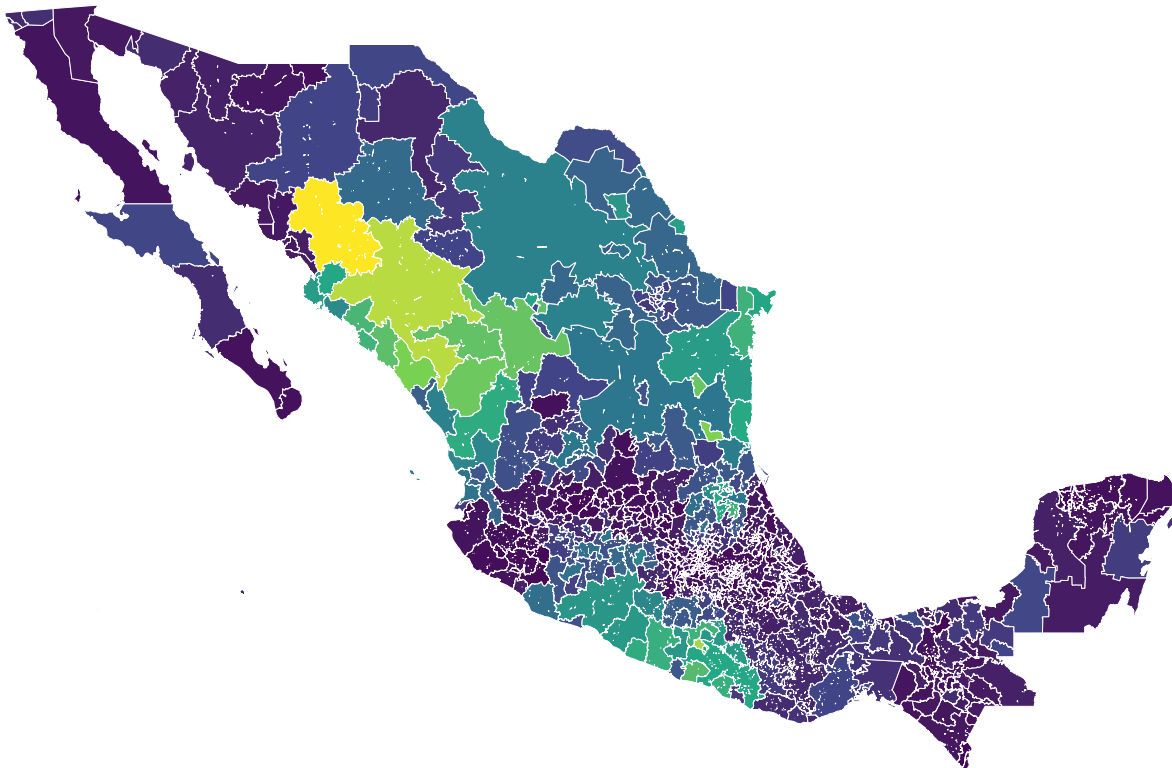

Reporting Delay Distribution by Age Group and Sex

Years between death occurrence and registration

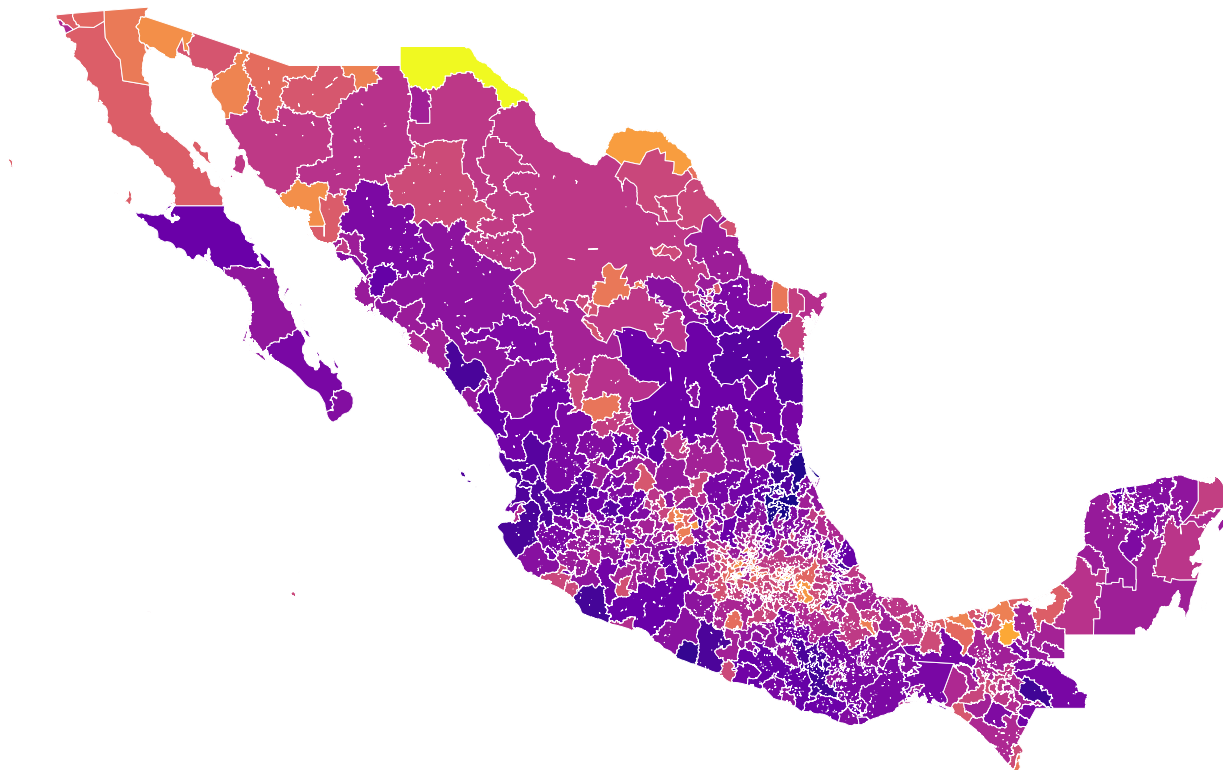

Geographic Distribution of Average Reporting Delays

Average years between death occurrence and registration by municipality group

Geographic Distribution of Standardized Mortality Rates

Age-standardized mortality rates by municipality group (2023)

Geographic Distribution of Multidimensional Poverty Index

Higher values indicate higher poverty levels
